5

6 You are running SAS 9. Some SAS 8 files will be automatically converted

7 by the V9 engine; others are incompatible. Please see

8 http://support.sas.com/rnd/migration/planning/platform/64bit.html

9

10 PROC MIGRATE will preserve current SAS file attributes and is

11 recommended for converting all your SAS libraries from any

12 SAS 8 release to SAS 9. For details and examples, please see

13 http://support.sas.com/rnd/migration/index.html

14

15

16 This message is contained in the SAS news file, and is presented upon

17 initialization. Edit the file "news" in the "misc/base" directory to

18 display site-specific news and information in the program log.

19 The command line option "-nonews" will prevent this display.
